After you figure out your aim, you should work out what your audience's need is in your ebook. For example, does your guide clear up a selected downside? If it does, and solves it in a method that hasn't been written about in 100 other ebooks, you can be in a position to achieve high gross sales

at a high price. If your ebook solves a problem or solutions questions in a new and distinctive way, it's best to value your book as excessive as you possibly can go. An effective approach for figuring out a value is to ship out a survey to your current customers. If these customers have already purchased an ebook from you, ask for his or her opinion in terms of price. Do that by making a gross sales page for the new guide, but do not embrace a value on that page. As a substitute, add plenty of hyperlinks to survey questions that ask pointed questions to aid you in assigning a worth to your ebook.

One other strategy is to test out prices by making a number of duplicate sales pages with totally different costs on each page. Be certain your sales copy is strictly the same on every page, and contains your selling-deal with sentence. Then figure out for each web page the conversion ratio between guests to your website and gross sales of your book. This may tell you what your optimum worth is.

Finally, in case you've written a e-book that solves a downside or presents a brand new approach, your book will herald both site visitors and profits.
