Advertising Methods

The important thing that unlocks the sales potential of your book is to find a single sentence that becomes your selling handle. Besides selling your books assiduously online, there are a number of different methods that can help you promote extra books.

One is to give one thing away without spending a dime with your book, similar to a beneficial bonus item. Or bundle a number of ebooks below one value, which lowers the value for each e book in the event that they were bought separately.

An efficient approach for figuring out a value is to ship out a survey to your present customers. If these customers have already purchased an e book from you, ask for their opinion in terms of price. Do this by creating a gross sales web page for the new book, but don't embrace a worth on that page. Instead, add a variety of links to survey questions that ask pointed questions to help you in assigning a price to your ebook.

One other strategy is to test out prices by creating a variety of duplicate sales pages with different prices on each page. Make sure your sales copy is strictly the same on each page, and

consists of your promoting-handle sentence. Then work out for every web page the conversion ratio between guests to your website and sales of your book. This will tell you what your optimum worth is.

Finally, if you happen to've written a e-book that solves a drawback or presents a brand new method, your book will bring in each site visitors and profits. So be sure you write that promoting-deal with sentence that sums up what downside your e book solves and what the benefits of your 292 e-book will be to the shoppers who purchase it. And then watch your market come to you!
