Apart from promoting your books assiduously online, there are several other methods that may enable you sell more books.

One is to give one thing away without spending a dime with your book, corresponding to a helpful bonus item. Or bundle a number of ebooks beneath one worth, which lowers the worth for every e book if they had been offered separately.

An efficient approach for determining a value is to ship out a survey to your current customers. If these customers have already purchased an ebook from you, ask for their opinion in terms of price. Do that by creating a sales page for the new book, but do not embody a worth on that page. Instead, add a lot of links to survey questions that ask pointed questions to aid you in assigning a worth to your ebook.

One other strategy is to test out prices by creating a number of duplicate gross sales pages with completely different prices on each page. Be sure that your sales copy is exactly the similar on

every web page, and contains your selling-deal with sentence. Then determine for each page the conversion ratio between guests to your website and sales of your book. This can inform you what your optimum price is.

In the end, when you've written a guide that solves a downside or presents a brand new approach, your e book will herald both site visitors and profits. So make sure to write that promoting-deal with sentence that sums up what downside your guide solves and what the advantages of your 834 ebook can be to the purchasers who purchase it. And then watch your market come to you!
